Password

Your Clovyr Account password protects your account details with Clovyr, like notifications and payment settings. For help resetting your password or accessing your account, please email support@clovyr.io.

Your secret key protects data related to your Clovyr apps and helps you keep your data privately synced across multiple devices.

Clovyr does not have access to your Secret Key and cannot help recover it if you lose it.

What to do:

1. Print or download this page and store somewhere safe (USB key or external drive).
2. Fill out your account password.
3. Connect your personal device by scanning the QR code below.

Use your personal device to scan this QR code and log in.

4. Store your kit in secure place where you can find it, e.g. fireproof box.
5. To restore data or add new devices, visit clovyr.app/settings.
